

Ministry of Waterways and Environment

The Ministry aims for concerted and continuous effort to strengthen the water resources and environmental management sector in Fiji by;

1. A long-term, integrated approach to policy planning and implementation
2. Collaborative multi-stakeholder Partnerships, and
3. Balancing environmental considerations with economic development, believing that the two are complementary, not contradictory.

Waterways - <http://www.mowe.gov.fj/waterways/>

The MOWE operate a number of schemes in the following areas to maintain the health and quality of Fiji's waterways:

- Coastal and flood protection
- Watershed management
- Irrigation
- Drainage and maintenance

Environment - <http://www.mowe.gov.fj/environment/>

- Biodiversity conservation
- Ozone depleting substances
- Waste pollution control
- Environment impact assessment
